

Candidate Statement for David Teckam

I have been in the BJCP since 1997, and have been active with grading and offering a preparatory beer judging course for over 10 years. I have been supporting judge training in my district to the point of being able to guide potential judges to other teachers in California. This has prospered to a mead course to expand the skills of beer judges, especially to get people comfortable with judging mead, and to guide them to success with the mead exam.

I am very active with supporting the competitions by judging what events I can, as well as assisting with preliminary judging.

I will consider your vote for me as your BJCP Representative to be a vote of support for me and my continuous efforts as I support good judging.
